About Me

Senior Full Stack Developer and IT Operations Leader with 10+ years of experience building scalable web applications and enterprise infrastructure. Expert in full SDLC, cloud architecture, and team leadership, with a proven track record delivering robust solutions for international clients.

Experience

Full Stack Developer

RINGSLACK

2024 – Present

- Built role-based authentication (ADMIN & CUSTOMER) with secure middleware
- Developed full-featured ADMIN dashboard for payments, Twilio, Mailcow, and system monitoring
- Created CUSTOMER dashboard with billing, trial management, and usage analytics
- Designed RESTful APIs with JWT and API key authentication
- Integrated Stripe, PayPal, Twilio, Mailcow, and cloud storage (AWS, Azure, GCP)
- Implemented tenant isolation architecture for secure multi-tenant access
- Built real-time usage tracking and analytics dashboards

Full Stack Developer

OCTO VAULT LIMITED

July 2021 – 2025

- Built and maintained scalable applications serving 10,000+ users with 99.9% uptime
- Developed secure REST APIs (500+ req/min), reducing latency by 40%
- Implemented JWT authentication and role-based access control
- Reduced deployment time by 60% using CI/CD and Docker containerization
- Partnered with cross-functional teams to deliver solutions 30% faster

Education

- Bachelor of Information Technology

2010 – 2012

STI College Sta. Mesa, Manila Philippines

Completed an IT program covering software development, databases, networking, and infrastructure.
